If you purchased “cheap land” in Lake County, and you thought that you could do anything you like on that property without consulting the Lake County planning commission, and without knowing what the zoning of that property allowed, then the answer is ‘yes’, you did buy into a lie.

Property ownership comes with many rights, however these rights are often superseded by local zoning ordinances and State regulations. Zoning ordinances impose restrictions on how a particular property can be used and establish requirements such as building heights and setbacks, septic requirements, types of buildings,

and uses of the property. Some property owners view these ordinances as an infringement upon their constitutional right to personal property, but zoning ordinances ensure that land is developed in a manner that protects the rights of ALL members of a community.

Zoning ordinances establish whether land shall be used for residential, commercial, agricultural or industrial uses. The ordinances also dictate the manner in which the land is developed by restricting the density, building heights, parking, setbacks and other attributes related to development.

Zoning seeks to either limit or encourage growth within the community depending on the

aim of local government. Before a property owner is able to build or live on his property, he must meet all of the zoning conditions in order to receive a building permit, unless an exception called a variance is made.

Zoning decisions are not always final. If your local planning commission rules that your proposed plans do not conform to the zoning, you can file an appeal where you can argue your case. You can also apply for a variance, which

allows for an exception to an existing zoning law. Another option is to obtain a conditional use permit, which permits you to use the land as you propose as long as you meet special conditions. If local zoning officials continue to rule against you, you can always challenge them in court and hope a judge or jury sees things your way. This is an expensive and time-consuming route to take, but the courts are often the final arbiter as to whether zoning or private owner's prevail.

Property ownership also comes

with many responsibilities. The negligent actions of an adjacent landowner can infringe upon the rights of their neighbors and can diminish the value of their neighbor's property. If this is the case, the neighbor may have a legal case for diminution of value and can pursue the matter in Civil Court, and depending upon the severity of the issue may be awarded substantial monetary damages including attorney's fees.

Lake County has a Prohibition and Abatement of Nuisance Ordinance (Ordinance No. 116) that also relates to property owned, leased, or occupied in Lake County. This ordinance defines “Nuisance” as meaning “any

act, event or condition that works or causes injury, damage, inconvenience, annoyance, or discomfort to another and the legitimate enjoyment

of a person's reasonable rights of person or property, or is capable of causing an unreasonable threat to the public health, safety, and welfare under the circumstances”. Number one on the list of issues addressed for abatement and enforcement is “the depositing or accumulation upon property of any junk, trash, garbage, vegetative debris, human or animal waste, vehicles, vehicle parts, or any other material which substantially detracts from the cleanliness of the area,

creates a stench or fire or safety hazard which would be likely to injure any person including children". For a full copy of this ordinance and, if needed, to file a bona fide nuisance complaint visit Lake County's website.

In the Summer of 2021, the County Commissioners were taken on a tour of Christmas Valley and the surrounding areas in North Lake County to see the need for enforcing the zoning regulations and the nuisance ordinance. They were appalled at several things they witnessed in the area. Subsequently, a code enforcement position was established in Lake County and the Lake County Commissioners recognize that code enforcement is essential and is now a priority in Lake County.

Zoning in the United States began in earnest in New York City with the passage of the 1916 zoning resolution. The resolution established height and setback requirements for buildings in the city. It was a direct response to the construction of the Equity Building, which cast a seven-acre shadow over neighboring property that lowered property values. As zoning ordinances spread across the United States, they were challenged by those who felt that the ordinances were a violation of their individual rights to do what they wanted with their own property. Eventually the issue was addressed by the Supreme Court in the 1926 decision of *Village of Euclid v. Ambler Realty Co.* The court ruled that zoning regulations were a legitimate use of

The Lie-Continued from page 5.

government authority.

Oregon's statewide land use planning program was created in 1973 to conserve farm land, forest land, coastal resources, and other important natural resources; to encourage efficient development; to coordinate the planning activities of local governments and state and federal agencies; to enhance the state's economy; and to reduce the public costs that result from poorly planned development. In 1973 the Legislative Assembly passed the Oregon Land Use Act (Senate Bill 100), under that program all cities and counties adopted comprehensive plans that meet mandatory state standards. The standards are 19 statewide planning goals that deal with land use, development, housing, transportation, and conservation of natural resources. The passage of Measure 37 in November 2004 showed the potential for profound changes in the implementation of land use laws. The Legislative Assembly subsequently fashioned a compromise bill, which was passed by the voters in 2007 as Measure 49.

When cities, counties and states fail to enforce their own land use zoning ordinances the cost is borne by the public by way of their property tax dollars being spent on expensive clean up and remediation. It is much more costly for the County to have to clean up a bad land use situation, than it is to curtail it from the start; before it becomes a costly "nuisance".

LETTER TO THE EDITOR

Ken Kestner demonstrates integrity, as being honest and of ethical principles. He is mission driven, being adaptive and persistently focused on the County's long-term betterment, above short-term personal gains. He listens carefully to others with desire to understand concerns, ideas, and perspectives. He also has a wealth of background knowledge and experience in dealing with Lake County governmental matters.

I've known Ken for many years as a fellow veteran of the Viet Nam War. A person's base character doesn't change. Ken has the character of a soft-spoken, combat-hardened Marine who's focus is getting things done, versus political talk. He doesn't share much about his Nam experience, but he has expressed deep appreciation for fellow military branches for their assistance at critical times.

Linda McCoslin

May 26, 1947 ~ July 19, 2022

A celebration of life for local herbalist Linda McCoslin will be held on August 6th, beginning at 10 a.m. at her home on West Autumn (just off of Rainbow) in Christmas Valley.

The family encourages community members to join in celebrating her life by bringing their musical instruments and a favorite dish to share for the pot-luck. Expect to participate in a drum circle, too.

Linda is survived by her daughter, Shannon, sons, Sean and Mike along with four grandchildren and two great grandchildren.

PUBLIC NOTICE

Several of the properties in the Christmas Valley township have utility easements for the **Christmas Valley Water District**.

When you have a utility easement on your property, the utility company/Water District may have a range of legal rights.

A few restrictions you might face include:

- Utility company/Water District access without your approval.
- Utility company/Water District may restrict your use of the easement when your use can harm underground water mains, valves, water meters, and the like.
- Restrictions on physical alterations: You may want to make an improvement to a certain section of your property. But the utility easement may prevent certain upgrades, such as erecting a fence or a gate.
- Vegetation restrictions: The utility company may require regular access to a particular area and constantly tear up your garden. Additionally, many utility easements limit the planting of major trees in a specified area.

If you're considering purchasing a property with a utility easement, take some time to research the local laws and regulations.

If you have questions regarding your utility easement call:
(541) 576-2090 or (541) 947-6921

Ken Kestner

County Commissioner

Position #2

PRIMARY EMPHASIS FOR LAKE COUNTY

- Foremost: Protect and Promote the interests of Lake County, north to south.
- Each three commissioners is to equally serve all regions of the county, north to south.
- Creative and persistent in following through on accomplishing identified needs.
- Public Safety telecommunication infrastructures beyond 911-PSAP in Lakeview need upgrading to effectively reach all areas across the county.
- Large and complex needs that deliver greater benefits to larger portions of county and to future generations, as broadband internet for economy, health, family social connections, youth education, public safety, banking needs, continuing & higher education for all, etc. Smaller specific needs incrementally add to larger end results.
- Planning today for Christmas Valley (CV) community's future. Growing population & future infrastructural needs necessitate planning today for tomorrow. Future decision might be (1) remain status quo under county government; (2) form a county service district, or (3) eventually incorporate as Paisley and Lakeview. CV residents make that a future decision. If 2 or 3 is considered, County Commissioners have obligation to facilitate.

BACKGROUND

- Family farm-raised, SE Arkansas. All revolved around promoting family and community.
- Christian-raised. Mother home-taught values, behavior, and the Golden Rule. She had a low tolerance for people who intentionally spread lies of others.
- Normally quiet. Taught to listen and learn, then to act.
- Participated in FFA, football, baseball, camping, hunting, fishing and drove the school bus during my senior year of high school.
- Enlisted in U.S. Marine Corps. Served as squad leader in field combat, 26th Marine Regiment.
- BS Degree in Biology plus graduate studies; Minor in History. History supports my advocacy for our 2nd Amendment Rights. Summers, holidays, weekends spent in oil fields, barge boat on Mississippi River, helping friends with timber logging, and shingling houses,
- Peace Corps, Nicaragua, Central America. Assisted establishment of new National Museum of Natural History.

- US Forest Service on three National Forests. Primary duty: Wildlife Biologist. Also interdisciplinary duties of water rights, minerals, namely oil & gas, boundary survey, timber sale planning, etc. 14-year tenure in Oakridge, all friends were loggers, served on Search & Rescue and police reserves.
- I visited Lake County every summer, drawn by the openness and the farming & ranching values, as of my childhood years.
- Transferred to US Bureau of Land Management to come to Lake County. Duty Station being Lakeview; retired 2006 to be commissioner and learn Lake County as home.

ACCOMPLISHMENTS AS PRIOR COMMISSIONER

Short list of things accomplished or assisted with.

- Revamped the County's Mental Health program, within first 6 months. Started with zero knowledge, but persisted to learn and accomplish the end product.
- Years representing Lake County & SE Oregon on State's Sage-grouse Habitat Committee (SageCon) and BLM's Resources Management Plan Amendment, leading to the decision not to list the grouse as endangered. Very significant for many of our ranching families, economy, and our lifestyle!
- Led efforts to form State-mandated Early Learning HUB, that addresses our economically disadvantaged youth of 0-5 years of age.
- Assisted North Lake resident in gaining local banking service in Christmas Valley.
- Assisted North Lake resident in gaining Klamath Community College (KCC) services to North Lake.
- Assisted Adel rancher John Kiely in getting BLM to remove major excess of wild horses from Beaty Butte Allotment; prime grouse habitat. Excess horses degrade habitat environment and would lead to listing of the grouse. Two-Prong Strategy; John negotiated with BLM. I conveyed with contacts within US Fish & Wildlife Services to elevate issue upward to US Dept. of Interior and then downward to BLM. Knowing the bureaucratic and political system is often advantageous.
- Internet fiber optic to schools of Paisley, Plush & Adel. Internet efforts to Summer Lake area got derailed. Encouraged Viser Internet to apply and extend fiber internet to communities of northern and central Lake County. Viser Internet is initiating implementation this summer, starting in CV area.
- Saving rural communities' Post Offices, not just Lake County, but nation-wide. Late night internet review of US Postal Services' operational manuals revealed two major contradictions of pending closures. 1) Emphasis on small rural communities wasn't followed. 2) Implementing procedures of P.O. closures weren't followed. Conveyed such to then-Congressman Walden. Walden approached the Post Master General. The decision to close rural Post Offices was reversed.

Summer Lake still has a Post Office.

All the issues on the Commissioners' monthly agendas are important. Often major issues and/or opportunities arise beyond commissioners' agendas and need to be addressed for the greater whole.

Knowledge, adapting and persistence to achieve are critical traits; USMC!

CRITTER CORNER

Submitted by Ken Kestner

Roughly five years ago, I planted two Swamp milkweed plants, a favorite of Monarch butterflies. I observed one mature Monarch frequenting the milkweed, thereafter two caterpillars. Deer kept munching the milkweed, and years since haven't seen any Monarchs.

This past spring, I transplanted the two milkweed plants to main vegetable garden that has deer-proof fence and tended the plants with adequate watering, etc. Still haven't seen a mature Monarch since five years ago. HOWEVER, on the morning of Wednesday, 7/27/2022, there are two Monarch caterpillars on the Swamp milkweed plants !!! The yellow, white, black bands are very distinct.

Water Station

You may have noticed activity in recent weeks on the lot next to Point S Tires, behind the Sheds for sale. Christmas Valley/N. Lake County is about to get a new business.

John and Patty Effingham, at the request of local ranchers and contractors, have decided to install a pump in their existing Commercial Well and build a Bulk Water Station.

Working closely with the Lake County Water Master and Planning Director; Ranchers and Contractor as well as Fire Agencies will have a back-up resource to the local Water District when it comes to filling large quantities of water.

The Effingham's stress that they are not interested in taking away any much needed business from the local water district, but will be available for requests that the water district cannot or will not be able to meet.

Midstate Electric COOP installed the power on July 19, 2022 and all that remains as of this writing is to build and connect the fill pipe to the pump.

The Effingham's hope to have it up and running by the time this paper is published.

If you're a rancher feeding cattle or a contractor needing water for dust control or any other large quantity need, give John a call at 541-815-4004.

SILVER SAGE LIVESTOCK 4-H CLUB

Lake County Burn Ban in Effect

Lakeview, OR - The Lake County Board of Commissioners are implementing County Ordinance 27, implementing a county-wide burn ban. This ordinance shall apply throughout the unincorporated areas of Lake County. It does not apply to federal or state lands, please reference their respective restrictions before burning.

Oregon Department of Forestry declared fire season to begin June 6, 2022.

Prohibited burning includes: any form of burning yard debris, outdoor campfires or bonfires, exploding targets, sky lanterns, burning of combus-

materials on private or public property.

Prohibited burning shall be enforced by the Lake County Sheriff's Department, District Fire Chiefs, and they have the authority to order any person to immediately cease any violations. Prohibited burning is a Class B Violation.

Depending on your fire district, allowed burning may include; burn barrels with 25 feet of clearance of combustible vegetation or materials, that are monitored, with metal screen covers with ¼" holes or smaller. A water source for complete extinguishment must also be available. Also, patio

wood-burning or propane units are allowed. Please consult your jurisdiction fire district for more information.

Burn permits will be issued by the fire authority with jurisdictional fire responsibility and legal authority to issue them.

This ordinance does not apply to burning for the purpose of generating heat in a stove, furnace, fireplace or other heating device used for habitation.

Ordinance No. 27 can be found at https://cms3.revize.com/revize/lakecounty/county_ordinances/ocs/Ordinance%2027%20County%20Burn.pdf
