Help Fill a Local Need: Volunteer Your Time

Find something in your community that suits you. This community primarily functions through volunteers. We have many new community members and this community can benefit from a little bit of your time. The many new community members tax the already over stretched, long standing volunteers that oil the works of the under supported needs of the north end communities.

If you have questions of how you can help feel free to contact me, Glenna Wade, via Facebook [glennasonly] and I can help you find an activity that suits you.

Playday Update

On August 24th, the Christmas Valley Rodeo grounds was the happening place in Christmas Valley as horses and riders gathered for a playday, and to shop at the Farmers Market, and Josie's Tack. Contestants commented on how nice the arena was and spectators were impressed with the work done on the grounds. Terry Terrell, Jim Strong, and Barbara Johnson walked that arena several times picking up rocks and throwing them into the bucket on the tractor—more than 5 full bucket loads!! Special thanks to Ron Wilson, Buddy and his crew, Becky Womack, and Jo and Glenn Lane for mowing and weed whacking the building area. Kudos to Ron Johnson and We Can Foundation for keeping us in screws, nails, water, and running our errands as needed. Handde Pump and JW Kerns generously donated materials for the kitchen area. If you haven't been by the rodeo grounds please come by and see what we have done!

But, we're not done yet!! Next playday is September 28th! Bring your horse and see if you can beat these times or just bring your horse and work the patterns as part of their socialized training--whatever you choose to do, the fun is contagious!!

Military Mouse here!
I love the smell of fall [me being safe and warm in the library] as many events bring tasty morsels for me to sample. The exciting news—the Friends are working on a great Halloween event at the Rodeo Grounds in conjunction and cooperation with the Trunk or Treat at the community hall. There will be more on this later as plans are still ‘under construction’.

The Christmas Valley Branch library will be looking for volunteers to paint and reorganize the kids room for better function and usage—stay tuned for more on that one.

CBD: Plant Medicine Part 4

CANNABIS- DERIVED CBD

If you live in a State that has recreational and medical use legal, you can get CBD products from a licensed dispensary. You can also get better quality products if you have a medical card. CBD derived from cannabis has various amounts of THC depending on your preference. Some people prefer cannabis - derived CBD as CBD and THC work very well together creating what's known as the "entourage effect," where each enhances the therapeutic benefits of the other.

There are strains of cannabis bred specifically to be high in CBD and low in THC, including "ACDC" "Cannatonic", "Charlotte's Web", "Ringo's Gift" "Sour Tsunami", "Harlequin", and "Hawaiian Dream".

With extracts like CBD oils and tinctures, you can find different ratios. A ratio (15:1) (10:1) or (7:1). For some having just a little THC enhances the overall benefits of CBD without negative side effects. Scientific research is ongoing for the anecdotal evidence of its therapeutic profile and medicinal benefits.

ISOLATE, FULL SPECTRUM AND BROAD SPECTRUM CBD:

There are three choices that to the extraction process.

- CBD isolate is more than 99 percent pure CBD, also called "whole plant formula", extracts CBD along with other beneficial phytocannabinoids. Including trace amounts of THC as well as terpenes and flavonoids.
- Full spectrum CBD, also called "whole plant formula", extracts CBD along with other beneficial phytocannabinoids including trace amounts of THC as well as terpenes and flavonoids.
- Broad spectrum CBD isolate is pure CBD is like full spectrum but contains zero THC. While CBD isolate is pure CBD, researchers believe that full and broad spectrum extracts offer more therapeutic value, as they're more bioavailable and activate more benefits.

DELIVERY AND DOSAGE:

How you choose to consume CBD depends on what you wish to treat, the effect you hope to achieve, how long you want it to last, and what feels the most comfortable and convenient for you. No "dosing protocol" or medical predictability exists, which makes dosing a bit tricky, so you will have to experiment, "low and Slow" is key: Start with a low dosage and take it slow. There's not a single documented case in the world of anyone dying from cannabis overdose. But you can overdose yourself resulting in symptoms like high anxiety and paranoia from intense psychoactive effects. Don't rush the process; start with 5-10mg and go from there. Some people react slower than others so go slow and see how you feel.

Dear Christmas Valley and Fort Rock Community,

We know you have heard about the Lake County Library District book budget being cut short. We would like to say "Thank you" to the all people that have made a donation to Christmas Valley library. It has helped, but we still have a long way to go.

Plus, we still need help in other areas. The repainting of the inside of the library has been put on hold. The Kid's room is the room we would like to start in. There has been an account set up at Santa's Hardware where donations can be made to help pay for the paint and supplies. Thank you, John Widenoja, for your help in setting up the account and your donation. If we are able to get some volunteers to do the prep work and painting, we would be truly grateful. We need to raise about \$150.00 to paint the Kid's room. Volunteers can come in to the library to sign up or call the library 541-576-2336 or Rose Gibson at 541-782-8075. If no one answers, please leave message. We would like to start as soon as we can, ideally the last weekend in September or the first weekend on October. We would start after the library closed for the day on a Saturday and try to be done by Monday evening.
